

Technical drawing of a square plate. The front view shows a square plate with overall dimensions of 59 mm by 80 mm. The inner square area has dimensions of 60 mm by 76 mm. There are four circular holes: two in the center (indicated by concentric circles) and two in the corners. A cross-section view on the right shows the plate has a thickness of 10 mm. The central area is hatched, indicating a different material or a cavity. The distance from the bottom edge to the center of the bottom hole is 40 mm, and the total height of the plate is 50 mm. A leader line points to the bottom corner hole with the text "T-SLOTS FOR M5 NUT".
